KokoSwap is a unique product that combines the excitement and thrill of NFT gaming with the magic and wonders of decentralized finance.

We are excited to introduce KokoAvatar, our one-of-a-kind celebrity NFT platform featuring famous celebrities from around the world. Kokoswap invites everyone to be one of the select few who are invited to enter our platform and bid on your favorite celebrity's digital assets.
ABOUT US

An exclusive platform that includes fresh and exciting features for NFT trades and gaming.

KEY FEATURES

Users can trade, invest, earn, play, and win. The platform's key features include NFTs, exchange, staking, and arcade gaming.
KOKO TOKEN - $KOKO

1. KokoSwap's native token is KOKO, and the protocol aims to be completely decentralized.

2. KOKO enlightens KokoSwap, transforming it into a publicly owned, self-sufficient ecosystem with smooth, secure, and strong governance.

3. KOKO is the KokoSwap ecosystem's utility and governance token, and it will be used in KokoSwap, KokoStake, KokoAvatar and KokoArcade.

The use of KOKO throughout the ecosystem distinguishes the token by endowing it with both playful and valuable characteristics.
KokoStake allows users to stake Ether or KOKO tokens to earn high annual interest and generate good passive income.

Users can diversify their income streams with KokoStake by investing and staking their idle funds for high returns.

The minimum staking period is one year, and the staking program lasts two years.
THE EVOLUTION OF NFTs

- Kokoswap's invite-only exclusive NFT platform is in the perfect spot to become the marketplace of choosing for celebrities and supporters, while also providing a trusted environment for stars to debut in the NFT hype and elevate their brand, owing to our unrivaled international network.

- Fans have a lot of visibility over their favorite stars' activities in today's positively contentious social media landscape, but interaction levels are incredibly limited. While the growing NFT space is making it easier for celebrities to create high-value digital representations of their work, the fan-ceb experience narrative has yet to be properly addressed.

- KokoSwap redefines the criteria of fan engagement by facilitating fans to have their fandom reinforced, increasing access to authentic celebrity experiences, and providing a platform for NFT trading.
Our Celebrity NFT Platform, KokoAvatar, is a one-of-a-kind, invite-only celebrity NFT platform with famous celebrities from around the world. Celebrities will have the opportunity to create valuable digital assets for use on our platform.

- All users will be able to generate their own gorilla characters.

- Thousands of accessories, skins, and limited-edition merchandise will be minted as NFTs and made available for trading and auction to our fellow gorillas.

- Special NFT badges will be minted in addition to player customizations.

- These NFT badges will be inspired by the real Koko gorilla from The Gorilla Foundation in California, who learnt the gorilla sign language and could communicate with humans.

- 1000 badges will be produced to represent the 1000 different signs that Koko learnt.
One of the major use cases of NFTs that has yet to be exploited is role-playing games. KokoAvatar will be a one-of-a-kind identifier for users on the KokoSwap ecosystem. KokoAvatar, in collaboration with KokoArcade, aims to bring the NFT experience to MMORPG gaming. It will include an NFT open wallet concept in which all users can brag about their NFT accolades.
KokoArcade is an addictive and interactive crypto gaming experience with the goal of creating a gaming marketplace where developers can upload HTML5, Flash, and WebGL Javascript web games and share them via the IPFS protocol.

KokoArcade's games will be a mix of in-house and third-party developed games. Every time a user levels up, they will receive KOKO tokens as a reward. Game developers will be rewarded with 4% of the KOKO tokens used while playing the game.

KokoArcade will work in tandem with KokoAvatar and this combination will result in an exciting MMORPG platform for all gaming enthusiasts. KokoArcade will be the first of its kind virtual currency gaming platform, taking cryptocurrency gaming to a whole new level.
